

Ask Cinderhaven — Am I about to get hit with OTIF penalties I can't see?

baseline scenario — figures reconcile to OTIF Blind Spot

Am I about to get hit with OTIF penalties I can't see?

In 2025, 1,344 of 15,530 shipments (8.6%) had late ASNs. Walmart charges \$25 per late-ASN PO under SQEP: 327 Walmart late ASNs = \$8,175 in 2025. Other retailers' ASN fees are unknown and not counted. Worst account: Walmart at 9.7% late ASN rate. Scored Walmart's way (by case, arrival by MABD, POs dated 2025), Walmart on-time is 95.6% against its 90% prepaid target and in-full is 97.9% against 95%, and both pass in all 12 months. Walmart's exposure here is the ASN fee, not OTIF. Walmart also charges 3% of the cost of goods on late or short cases; that fine is not included in this figure.

8.6% ASN late — \$8,175 Walmart ASN fees (2025)

Key numbers

1,344 of 15,530	Late ASN shipments, 2025 8.6% of all shipments
\$8,175	Walmart ASN fees, 2025 327 Walmart late ASNs × \$25; other retailers excluded
95.6% on time · 97.9% in full	Walmart OTIF, 2025 (by case) Targets 90% (prepaid, by MABD) and 95%; met in all 12 months

How this verdict was reached

Walmart ASN fees = Walmart late-ASN shipments in 2025 × \$25 (Walmart SQEP Phase 1 flat fee per late-ASN PO; each late-ASN shipment counted as one PO). Other retailers' ASN fees are unknown and excluded. Fires when the all-retailer `asn_sent_late` rate > 5%. Walmart OTIF targets since early 2024 (SPS Commerce; Walmart's own spec is in Retail Link): 90% on-time for prepaid freight, measured at arrival by MABD (requested ship date + 3 days); 98% ready for collect pickup; 95% in-full, scored as whole cases delivered against cases ordered. Walmart charges 3% of the cost of goods on late or short cases. The data has no prepaid/collect flag, so prepaid is assumed. Walmart OTIF uses POs dated 2025; 127 lines shipped Dec 31–Jan 5 with no delivery date yet are excluded (counting them as late gives 94.7%, still passing). Window: calendar 2025, the same year used in q15. Late ASN = ASN arrived after ship date (`asn_sent_late` = true in `fct_retailer_shipments`).
