Am I leaving deduction money on the table?

\$586,574 in deductions (52% of total) expired without a dispute filed — that window is permanently closed. And your dispute win rate is only 0% — well below the 50% floor. Two problems: money already lost, and the recovery process is broken.

money left + broken process

Key numbers

\$586,574	Expired without dispute 52% of gross deductions
0%	Dispute win rate
\$68,110	Still recoverable $\text{open} \times \text{avg recovery rate}$

How this verdict was reached

Expired = deduction_status = 'expired' (dispute window closed, never filed). Fires when expired share > 20% of gross deductions. Secondary: dispute win rate < 50%. Win = dispute_outcome = 'overturned'. Thresholds from Retailer Deduction Recovery.
