

Ask Cinderhaven — Where is my trade spend going?

distressed scenario — figures reconcile to Trade Spend Data Diagnostic

Where is my trade spend going?

Trade spend looks controlled: 14% of deductions are unplanned, within the 25% ceiling. Total manufacturer promo investment: \$328,891. No structural leakage detected.

within range

Key numbers

\$1,118,682	Total deductions
14%	Unplanned share compliance, shortage, damage
\$328,891	Manufacturer promo spend

How this verdict was reached

Unplanned = compliance + shortage + damage + post-audit deduction types. Fires when unplanned share > 25% of total deductions. Uses distressed scenario — full deduction universe including expired and disputed. Thresholds from Trade Spend Diagnostic.
